

### **Tinkerwolf – 1,000 Raw Fed Dogs**

The pet food industry would have you think that dogs are best fed on a diet of processed junk food biscuits aka "high quality" kibble. Ted and his raw fed friends want you to see that the natural, healthy diet for a dog is raw meaty bones. Here is Ted, and 249 of his pals, eating exactly the way nature intended them to, we're going to get to 1,000 dogs and we're also collecting photos of **cats** and **ferrets**.

If you would like to include your raw fed dog, cat or ferret in the campaign, or just want to know more please check out [www.tinkerwolf.com](http://www.tinkerwolf.com) or e-mail [rawfedpup@tinkerwolf.com](mailto:rawfedpup@tinkerwolf.com)
